

John V. Krutilla Research Stipend Awardees

www.rff.org/krutilla

2017-2018

Peter Maniloff, an assistant professor at the Colorado School of Mines, will use this stipend for research on citizen monitoring of environmental regulations.

2016-2017

Catherine Hausman, an assistant professor at the University of Michigan, is using the stipend to support her research (in collaboration with RFF University Fellow Lucija Muehlenbachs of the University of Calgary) on how rate-of-return regulation of natural gas local distribution companies affects gas leaks and spending to abate those leaks.

2015-2016

Patrick Bayer and Alexander Ovodenko, postdoctoral researchers and lecturers in the Department of Political Science at Washington University in St. Louis, will use their stipend for work on the local politics and economics of shale gas development and regulation in the United States.

2013-2014

Derek Lemoine, Assistant Professor, University of Arizona, will use this stipend to support work to update and improve the damage functions used in integrated assessment modeling of climate change policy.

2012-2013

Timothy Fitzgerald, Assistant Professor, Montana State University, will use this stipend to support research on the energy/environmental tradeoffs associated with natural gas fracking.

2011-2012

Junjie Zhang, an Assistant Professor in the School of International Relations & Pacific Studies, University of California, San Diego, will use this stipend to support research on agglomeration effects of wind power development in China.

2010-2011

Kevin Tsui, an Assistant Professor in the Department of Economics at Clemson University, will use this stipend to support research on how the spread of residential air conditioning since the middle of the twentieth century has changed the relationship between weather and health in the United States.

2009-2010

James M. Sallee, an Assistant Professor in the Harris School of Public Policy Studies at the University of Chicago, will use this stipend to support research on the effects of a Canadian tax and subsidy “feebate” program aimed at improving vehicle fuel economy.

2008-2009

C. Josh Donlan, III, a PhD graduate of Cornell University in ecology and evolutionary biology and a Visiting Fellow at Cornell University, will use his stipend to conduct research on biodiversity offsets as a tool in managing fisheries by-catch.

2007-2008

Ahmed Mushfiq Mobarak, of the Department of Economics at the University of Colorado and the economics faculty of the Yale School of Management, is the recipient of the second annual Krutilla Research Award. He will use his stipend for study of the interaction between institutional mechanisms for decentralized water resource management and water pollution in Brazil.

2006-2007

Jennifer Alix-Garcia, Assistant Professor of Economics at the University of Montana/Missoula, is the recipient of the first annual Krutilla Research Award. She will use her stipend for study of the mechanisms behind the observed negative effect of inequality on deforestation in Mexico.
